Typical product characteristics:

Light colors show staining and denim abrasion faster and more clearly than dark colors. In combination with dark or intense shades, color migration/color transfer may occur. Dark and intense colors tend to show color abrasion, especially when in contact with light textiles or surfaces. Pilling is unavoidable and can occur due to friction or the adhesion of foreign fibers. Minor color deviations between production batches are technically unavoidable. A certain degree of fading due to light exposure or mechanical stress is material-related. Structural differences within the fabric are production-related and may result in a slightly irregular appearance. Shimmering/color shifts depending on light incidence are characteristic of faux fur fabrics and may create optical color variations. The pile may lay flat due to friction or mechanical stress, altering the texture and appearance. Pile layer changes (pressure marks, seating marks) are unavoidable, as high-pile fabric will compress or flatten with use. Irregularities in pile height and density are production characteristics and not material defects. Patterned variations may show slight differences in pattern placement and repetition due to design influences in the production process. Differences in color depth and contrast within the pattern are material-related and may vary depending on viewing angle and lighting.

CLEANING INSTRUCTIONS

Daily care and at-home cleaners can keep your fabric looking beautiful for years. In the case of a spill, stain, or general wear and tear, follow our tips on how to clean a fabric.

For cleaning you need distilled water and a ph neutral shampoo.

You need a white, clean and soft cotton cloth. Use this to remove the stain in circular motions and allow the area to dry.

Cleaning only with the vacuum cleaner nozzle.

Recommended care labeling:

washing

bleaching

drying

ironing

dry cleaning

Instructions for use and care:

Please take note of the instructions for use and care at www.eurotex2000.com/Care instructions. We assume no warranty for damage caused by improper use, cleaning, care, subsequent impregnation and pets.

Cleaning instruction:

Important information and useful tips for optimum cleaning and care of your upholstery fabric can be found at www.2-clean.de. Further cleaning will have to be done by professionals who specialize in how to clean with this description.
